### **Critical Path Institute Receives Bronze Award From League of American Bicyclists**

**October 25, 2012 ~ Tucson, AZ** – Critical Path Institute (C-Path) announces that it has received a Bronze Bicycle Friendly Business (BFB) award from the League of American Bicyclists in recognition for its commitment to promoting bicycling and a healthy lifestyle in the workplace.

This is the first year that C-Path applied for recognition. Nick King, a project manager for the company, spearheaded the effort to promote bicycling and plans to conduct bike riding safety classes for co-workers.

With the announcement of 71 new BFBs today in 27 states, C-Path joins a visionary group of close to 500 local businesses, government agencies, and Fortune 500 companies across the United States that are transforming the American workplace.

“Businesses may be the engine of our economy, but more and more are realizing that the bicycle can be a powerful catalyst for increased profits, reduced health care costs, happier employees and more customers,” said Andy Clarke, President of the League of American Bicyclists. “Companies large and small are voting for a more bicycling-friendly America and making significant contributions to our economic growth by promoting healthy, sustainable transportation.”

**About the Bicycle Friendly America Program:** The Bicycle Friendly Community, Bicycle Friendly State, Bicycle Friendly Business and Bicycle Friendly University programs are generously supported by program partners Bikes Belong and Trek Bicycle’s One World, Two Wheels Campaign. To learn more about building a Bicycle Friendly America, visit <http://www.bikeleague.org/programs/bicyclefriendlyamerica>

**About Critical Path Institute:** Established in 2005 as a non-profit organization, C-Path was formed with public and private philanthropic support from the University of Arizona, the US Food and Drug Administration (FDA), and the Tucson community. Additional funding has been provided by Science Foundation Arizona (SFAz). C-Path is committed to improving human health and well-being by developing new technologies and methods to accelerate the development and review of medical products. An international leader in forming collaborations around this mission, C-Path has established global, public-private partnerships that include nearly 1,000 scientists from government regulatory agencies, academia, patient advocacy organizations, and 41 major pharmaceutical companies. C-Path has headquarters in Tucson, AZ and an office in Rockville, MD. For more information, visit [www.c-path.org](http://www.c-path.org) and follow us on Facebook.
